

FUEL MASTER 6%

A.F.F.F.™

Australian made and owned, FUELMASTER 6% is completely bio-degradable and non-toxic.

FUELMASTER 6% is your first line of attack with all class 'B' hydrocarbon fires. When proportioned at 6% this class 'B' Aqueous Film Forming Foam provides rapid fire control and extinguishment. FUELMASTER 6% has the ability to flow rapidly and freely across the surface of any hydrocarbon flammable liquid fuel. With FUELMASTER 6% and its modern technology all flammable vapours are locked in under a tight film combined with a molecular structure of tightly formed bubbles. FUELMASTER 6% can be applied with conventional proportioning equipment, from in line injection / eduction to around the pump systems. FUELMASTER 6% can also be applied with standard fire nozzles, air aspirating foam attachments or nozzles

FUELMASTER 6% - It Works!

- = All flammable vapours are locked in under a tight film.
- = Completely bio-degradable and non-toxic.
- = Identifiable pails with easy to read labelling.
- = Available in colour coded 20L pails, Blue 205L Drums or 1000L Bulk Containers.
